

Hello and welcome to
our April newsletter

The kids have settled into the classroom beautifully! They've adjusted to our routines and are already thriving in our learning environment

It was wonderful meeting all of you at the orientation. Getting to know your values and hearing about your children was incredibly insightful, and it's helping me understand each child's unique personality and strengths.

Literacy

Our young learners are diving into phonics! We're currently exploring the sounds and formations of letters, with a focus on the letter "B" this week.

Numeracy

The children are demonstrating great progress in number recognition and counting! We're now building on these skills by practicing writing numbers independently based on their counting abilities.

UOI

This month, our UOI theme is "Who We Are." This week, the children embarked on a journey of self-discovery, exploring their strengths and creating a class graph to visualize everyone's unique choices.

Home school connection

Parents play a crucial role in reinforcing learning beyond the classroom. Here are some ways you can connect with your child's learning at home:

- Practice writing numbers together, continuing their phonics exploration, and engaging in activities that celebrate who your child is as an individual.
