WHAT'S NEW

We're starting the new school year at Hayama International School!

It was only two days of the new semester, but for me as a new teacher it was a wonderful time. I met your wonderful children and we had a lot of fun! Everyone is nice and eager to explore, play and learn.

We played, we drew, we read a bit. We were dancing and singing too. We also were counting and writing a bit. We were joking and having fun too. We are trying to improve with each passing day, so I hope that, with your support (I am sure that you, dear parents and guardians, are our faithful fans) we will reach our goals and you will be proud of us.

We have to work on some details, but I think that we are becoming a good team. I hope that looking at the attached pictures brings smiles on your faces. :)

From next week on we will do even more to learn about ourselves, the people around us and the whole world that is such a magical place. Since your children are curious about the world that surrounds us, I am sure that we will have a wonderful time full of fun and learning.

Sincerely,
Mr. Chris (A4 teacher)

P.S. Food that your children bring to school every day looks so tasty that I can see how much you love them. Thank you for that from all my heart, they eat everything with pleasure and smiles on their faces"
