## WHAT'S NEW

Dear parents and guardians, first part of the month was short, but we enjoyed Golden Week and came back to school well rested and happy. Seeing smiled faces of your children was a very pleasant side. Thank you for that!

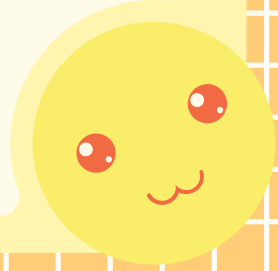

We are doing our best to figure out "Who We Are", and thanks to exploring "Abilities that differentiate people" we are getting closer and closer to finding answer.

We learned about teamwork, our bodies and how they work and also kids tried expressing themselves through art.

Literacy- We were continuing our phonics learning with letters E and F.

Numeracy- We are working on writing numbers 1-10 independently and counting from 1-10 and 10-1.

This month we won't be having any special dates, but the first half was very interesting and fun. We enjoyed Golden Week, but at school fun continued. We celebrated birthdays of our friends Sumire, Noah, Hana and Kanon. Once again Happy Birthday, guys! You are big boys and girls now, so I hope you will be more and more responsible.

In the name of all the kids and teachers and staff I'd like to thank you all for gifts we received. Children were very happy!

That's it for this Newsletter, see you soon!!  
Sincerely,  
Mr. Chris (A4 teacher)
