

Hello and welcome to  
*our End of September  
newsletter*

The students have all settled back into their classroom routine. They had fun reconnecting and sharing what they were up to during the summer.

## Literacy

Children are continuing their learning journey with phonics, specifically focusing on Sound N, O, and P. Their vocabulary is expanding, and they are honing their sound recognition skills.

## Numeracy

We have been working on graphs, shapes, and addition, and we'll continue focusing on these topics for the rest of the month to build a solid understanding.

## UOI

For this month's Unit of Inquiry, we are exploring the theme of "How We Express Ourselves." We had a Show and Tell where the children shared photos from their summer break. We have also begun exploring colors and experimenting with mixing them.

Here are some ways you can support your child's learning journey at home:

- Play "I Spy" with sounds (N,O,P) & read simple books. Say a word, ask "What sound does it start with?". Start reading words in books by sounding out the letter.
- Numeracy: Count everyday (stairs, toys) & find ways to explore addition at home.
- UOI: Discuss colors and mixing colors.

Let's work together to make this a fantastic learning month for your child!
