SOCIETY AND INDIVIDUALS

WELCOME YU!

The Junior High School students and I are delighted to welcome
Yu back to Hayama!

Yu was previously a student here and already knows many of
her new classmates, which has made her transition back so
much smoother. We're excited to learn from and with you, Yu!

Get ready for an exciting journey filled with fun learning
experiences and lasting memories. Let's make this school year
one to remember!

OUR FIRST WEEK BACK!

We are starting the year off on the front foot, full of energy and excitement. We have continued where we left off last year in all subjects and we have starting collaborating for the End Of Year Show (EOYS). In our subsequent newsletters we will be able to showcase our learning to you. Here is a small sample of how we have started the new term.

COLLABORATIVE ART PROJECT

Collaborative art fosters teamwork, creativity, and communication, encouraging individuals to share ideas, build connections, and create something meaningful together.
