

FEBRUARY NEWS @ A9

LANGUAGE ARTS

We have almost finished reading Wonders Unit 4, while learning more about describing actions, using adverbs, for our narrative writing work!

UNIT OF INQUIRY

We continue to enjoy appreciating various cultures, with fun activities such as the "Bug Traveler" board game, interacting with a luthier (ukulele maker) and a hula dancer, and making crafts for setsubun and valentines day.

MATHEMATICS

We continue studying Bridges Units 4-5. The 3rd graders moved from time reading to other units of measurement (distance, mass, volume) as well as techniques for conversion of units. The 4th graders proceeded to rounding off to the nearest millions and mastering estimates and differences.

The HAYAMA International School Family
