Morning Routine

Practice writing out full name, full alphabet and numbers one to twenty

Birthday

Happy birthday Hana <3

Unit 1: Expressing Ideas and Emotions

Our relationships: how do we maintain them in class? How do we appropriately respond to others' emotions? How should we approach peer conflicts in healthy ways?

Math: Bridges

Mastering our shapes: how to create them, identify them, and understand what differentiates them from one another.

Language Arts: Wonders

Reviewing our alphabet: learning to recognize and write each letter with confidence.

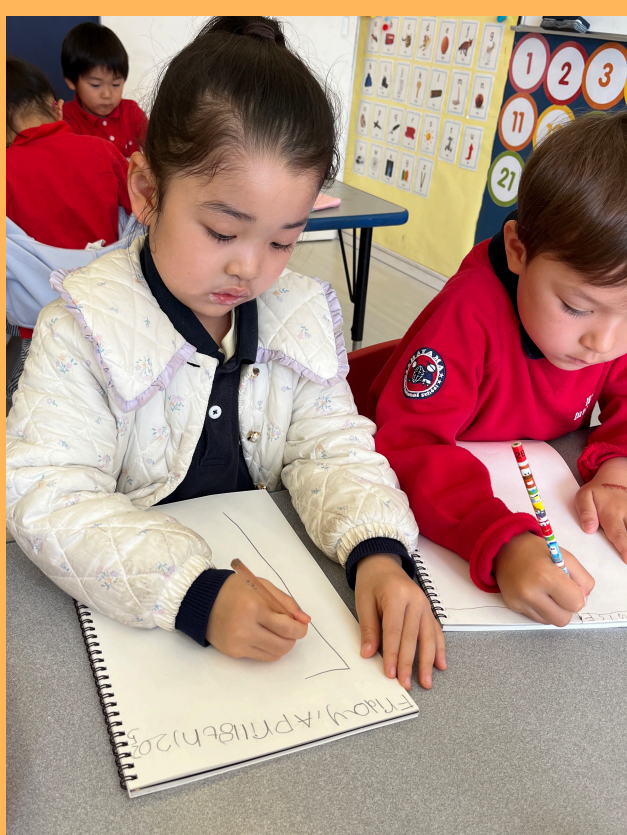

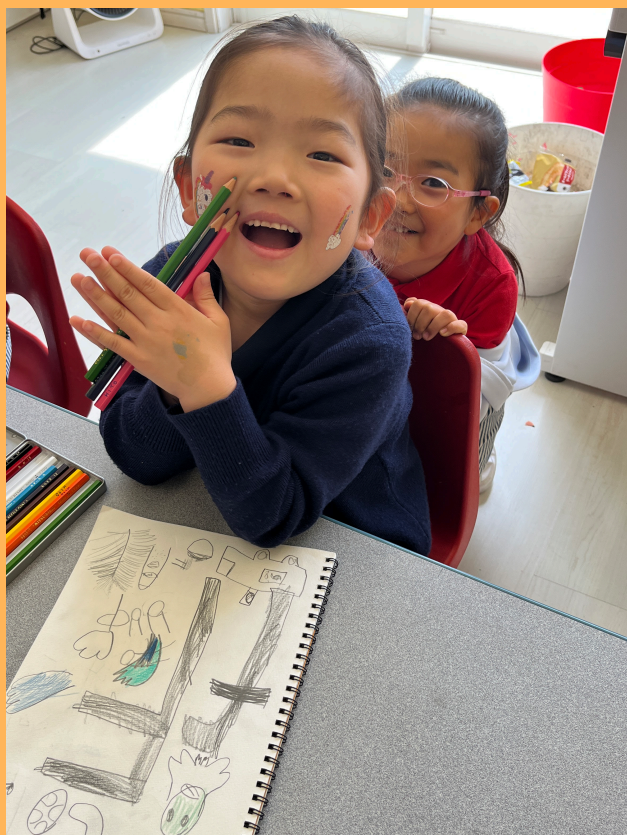

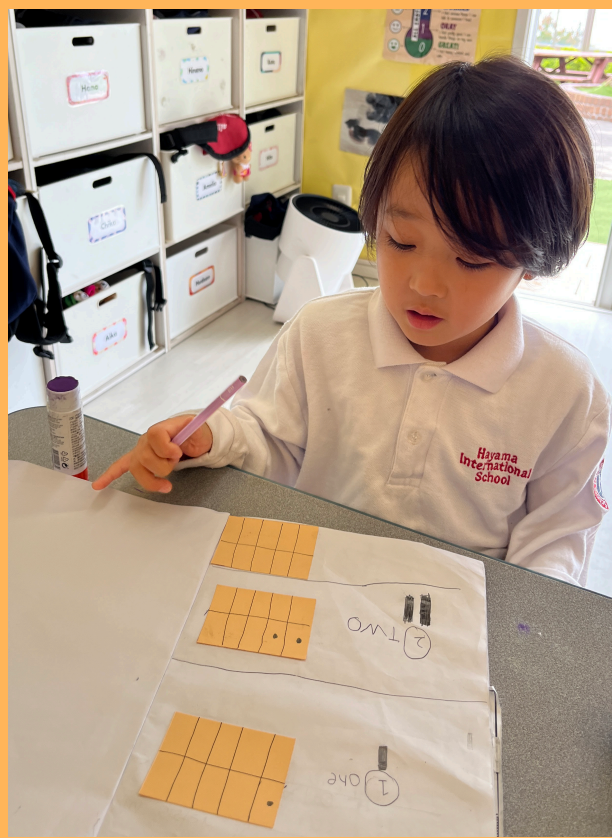

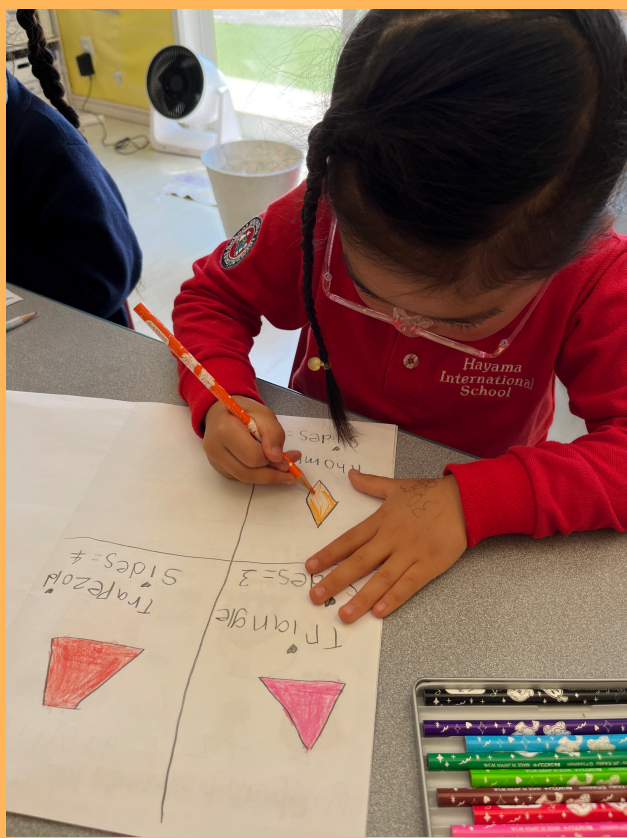

Practicing our days of the week and months daily, until we can read the date with ease.

Earth Day: discussing why it's important to protect and care for our planet, and exploring Earth-related vocabulary.

Writing sentences using "Can" and "My"

Music

Preparing for Aloha Yama : students are practicing a well-known Hawaiian song that's sure to be familiar to all. They're working on keeping rhythm, following the changing melody, and singing along with the ukulele.

PSPE

Egg Run : an original student-teacher SK game where players try not to get caught by 'it' by either running or turning into an egg at the last second. This fun and active game builds strategy, counting, observation, and stamina , for both students and teachers!

Art & Design

How We Express Ourselves: Through Fashion
Students created full-body self-portraits and used collage to customize their clothing and accessories. They freely designed outfits to reflect how they would like to express themselves through fashion.

Earth Day Mosaic: We explored the importance of Earth Day and maintaining the health of our planet. Our discussions included the harmful impact of microplastics in our daily lives. Inspired by this, we visited the beach to clean up and collect materials for our own Earth Day mosaic. A creative way to care for and celebrate our beautiful beach.
