Dear Parents & Guardians

As we move into the fall term, I'm happy to share that our class has been full of joy and engagement—especially during circle time! Our new friends are settling in well, and it's heartwarming to see how welcoming and helpful the returning students have been.

We've been having a great time singing and dancing with friends from other classes, and we're currently learning all about community helpers. It's a wonderful opportunity to recognize and appreciate those who make our community a better place! As the term continues, we're looking forward to creating even more happy memories together. As I always say, their smiles truly brighten our day!

Thank you,
Ms. Kristil
