A3 STARS ✨

🍎 Hello A3 Families! 🌱

This week in our A3 classroom, we've been learning all about harvest time, fruits, and vegetables! The students were full of curiosity and excitement as we explored how crops are grown, picked, and shared during this wonderful season.

Through fun discussions, stories, and hands-on activities, the student learned about different fruits and vegetables, from juicy apples and bright oranges to crunchy carrots and leafy greens. They enjoyed sorting, naming, and even pretending to "harvest" their own little gardens in class!

Our classroom was filled with color, laughter, and creativity as the students connected what they eat every day to the amazing work farmers do. It's been a great way to celebrate the fall harvest and appreciate the healthy foods that help us grow strong.

What a fruitful and fun-filled week it has been in A3! 🍎 🍇 🌱

IN THIS ISSUE

- HARVEST SEASON.
- TOMATO CRAFT.
- VISIT TO POTATO FARM
- CLASSROOM ACTIVITIES.
- THANK YOU!

CASSROOM ACTIVITIES

“The students arrive at school each day and happily reciting A–Z and 1–20 every morning.”

Phonics Activities

This week, our A3 students had fun learning the phonics sounds /e/ and /f/. Through songs, chants, and games, they practiced saying and identifying words that begin with these sounds. For E, they learned egg, elephant, and engine, while for F, they enjoyed fish, fan, flower, and frog etc. The students loved using pictures and real objects to connect each sound to everyday things around them. These activities helped strengthen their pronunciation, listening, and confidence in using new sounds. 🐸🐙🌟

Math Activities

The students explored patterns this week! They learned how patterns are sequences that repeat, such as shapes, colors, and numbers that follow a special order. Using beads, blocks, and number cards, the students created their own repeating patterns and identified those they saw around the classroom. They were excited to discover how patterns help us make predictions and recognize order in everyday life. Through fun, hands-on activities, the students built a stronger understanding of number patterns and logical thinking.

Harvesting! Fruit and Vegetable Season

The students were excited to learn all about fruits and vegetables this week! 🥕🍎 Together, we talked about how they grow, their colors, and why they help us stay strong and healthy. The students enjoyed naming their favorite fruits and vegetables, sorting them by color and type, and discovering which ones grow above or below the ground.

During our activities, they created fun fruit-and-vegetable crafts, sang songs, and played sorting games that made learning even more enjoyable. Through these hands-on experiences, the students gained a better understanding of healthy eating and the importance of harvest season. What a colorful and nutritious week it was in A3! 🍇🍌

Art and Craft Activities

The students had a wonderful time creating their “Grape, Tomato and Corn Craft” during Art and Craft! Using colored paper, glue, and crayons, they carefully designed bunches of grapes, tomato and bright yellow corn to celebrate the harvest season. The classroom buzzed with excitement and creativity as the students proudly displayed their colorful work. It was a fun and engaging way to learn about fruits and vegetables while expressing their artistic skills! 🍇🍌🍅

IMPORTANT DATES:

November 24th- Thanksgiving Day
(No school)

THANK YOU!!!

The students' thank you letter to parents and guardians.

We want to extend our heartfelt thanks to our wonderful parents and guardians for your love and support throughout this Harvest Season! 🌽🍇🍅

Your encouragement has made our lessons and activities even more meaningful as the students learned about fruits, vegetables, and the joy of harvest time.

The students had such a delightful time creating their grape, tomato and corn crafts, exploring healthy foods, and celebrating the beauty of the season together. Your involvement, from guiding them at home to cheering them on, truly brightened their learning experience.

We are so grateful for your continued care, support, and partnership. Because of you, our students continue to grow with confidence, curiosity, and joy. Thank you for helping us make this Harvest Season so special and full of wonderful memories! 🍁🍁💛

Thank You!!!
