NEWSLETTER

Dear Parents and Guardians,

I'm so happy to share the wonderful progress our students have made this term! The friendships they've built are growing stronger every day, and it's lovely to see how they care for and look out for one another. Also, they're always excited to join our discussions and share their ideas, which makes our lessons so lively and fun!

When we learned about fruits and vegetables, we had the chance to go outside and harvest sweet potatoes together. It was such a joyful experience—everyone enjoyed the fresh air, the hands-on activity, and spending time with friends outdoors.

Warm regards,
Ms. Kristil
