# INVESTMENT PROJECT

Our investment project was an exciting journey that helped us build real-world understanding of economics and finance. We began by planning, organizing, and preparing to run a small pizza business. This included taking orders, managing supplies, calculating costs, and ensuring we delivered a quality product. Once the pizzas were sold, we used the profits to explore the stock market, researching companies and learning how investments grow over time. Through this hands-on experience, we developed practical skills in budgeting, teamwork, decision-making, and financial responsibility. Most importantly, the project showed us how small ideas can grow into meaningful opportunities when managed well. It was a valuable and enjoyable way to learn how money works in the real world.

# PRESENTATIONS

Students worked together to present their project to all the elementary students, sharing their ideas with confidence and teamwork. They planned, practiced, and supported one another to deliver a clear and engaging presentation. Their collaboration showcased their hard work, creativity, and leadership, inspiring younger students through their example.

# HOLIDAY PARTY

Our holiday party performance was a joyful and memorable celebration. Students had a wonderful time creating colorful props, practicing songs, and learning fun dance routines. Their excitement and teamwork helped bring the show to life, filling the room with energy and holiday spirit. We are incredibly proud of their hard work and creativity. A heartfelt thank-you goes to all parents and guardians for your support, encouragement, and participation throughout the process. Your involvement made the experience even more special for the students. It was truly a fantastic event that brought our community together and created lasting memories for everyone.
