LANGUAGE ARTS

Continuing to work with the 35 sight words we have been reviewing, students are writing short sentences and reading and visualizing sentences. Students pay close attention to details in the sentences, such as quantity, color, location, and more. They have been growing their fluency and confidence in reading and identifying common sight words.

MATH

Messing with time! Students are continuing to build their understanding of how a clock tells time, learning vocabulary such as "half past," and practicing writing time in words. Along with this, they are exploring how many seconds are in a minute, how many minutes are in an hour, and how many hours are in a day.

EOTY PREP

Students have debuted in acting! Both A1 and A2 students have been working together to create short episodes for the End of the Year Show. We have all learned how much effort goes into minute long videos, how eye contact and clear speaking can enhance a story, and students have continued to show their talents through unscripted additions.

The SK students have shown incredible patience and hard work as we knock out one episode per day!

Photos in future newsletters may be kept brief, as storage space is currently limited due to End of the Year Show videos!
